HE
IS THE MAN TO ASK

AND HERE HIS REPLY

"No, sir. I wouldn't even leave her with the biggest garage,
if I'd notice that they havn't got the right tools to do the job.
I am not going to have my motor messed about!"

Drivers, who are on the road all the time are
well alive to their responsibility for the people
or the goods in their care.
Naturally, they expect from the modern garage tho most careful
and efficient attention to their vehicles.

Give your customers that feeling
of safety and confidence
through a reliable service with the
worldknown tools from
